

School District of Manatee County School Health

Although your school nurse cannot diagnose, prescribe or give medical advice, they can still help.

Your School Nurse can:

- Advocate with teachers and staff for student's health care needs
- Educate on medications, health and dental issues
- Recommend community resources
- Advise on wellness activities and coping skills

For more information or assistance, please contact your School Nurse listed below. The nurse will be available by email and/or phone during the designated hours.

Parrish Community High School
