* Palm View and Johnson are K8 schools. Johnson is an all application IB school.

* This spreadsheet identifies only the District's Capital Outlay schools and compares C/O enrollment to the FLDOE's Florida Inventory of School Houses (FISH) capacity. Other enrollment (Charter schools, alternative sites, etc.) counted in the District's overall DOE Forecast is not included in this report. This also does not include approximately 1,000 VPK students at the elementary level, they are not C/O enrollment.

* The enrollment counts for each of the schools listed were taken on the dates indicated on the report.

* This spreadsheet identifies only permanent FISH capacity. Several Schools also have portables which adds to their overall capacity.

* The enrollments and capacity used on this spreadsheet were captured on a specific date and are subject to changes during the course of the year.

* The Enrollment vs Capacity Status was determined using the November 1, 2021 date.
