

# HP-How to Connect to a HotSpot

① Log on Computer with student ID number and password.

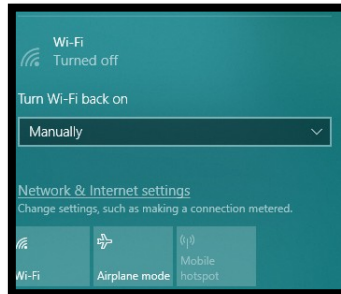

② Open notifications on computer lower left-hand corner of screen.

Or select the wireless icon in the bottom right hand of the screen.  
If you don't see it click the up arrow to show all options as pictured below.

③ Make sure the Wi-Fi is on. If not, click to turn on.

Select the name of the Hotspot you are connecting to, check the box to connect automatically if you want it to remember this HotSpot, and then click Connect. In the picture below, we are connecting to 24205's iPhone.
