Resume

4 Key Components:

A high school student's resume will look slightly different from a professional one. These are the sections to include in the suggested order they should appear:

1. Education

Students can list their high school, but it should also include achievements, such as being on the honor roll or taking advanced courses.

Resume cont'd

2. Experience

Previous job experience – work or volunteer. Can include babysitting, lawn mowing, etc.

3. Skills

List computer and online research skills, customer service, communication, and detail-oriented skills.

4. Activities & Awards

Extracurricular activities and volunteering can set a student apart from others. Even if a student only volunteered for one semester, that's still a relevant experience to include.

Resume cont'd

Note:

Use action verbs—assisted, helped, arranged, managed—to describe the student's previous experiences. These words help the employer visualize the student as actively involved.
