Outlining a path for Florida to improve its education system by eliminating Common Core and paving the way for Florida's nearly 2.8 million students to receive a world-class education to prepare them for jobs of the future, Governor Ron DeSantis issued [Executive Order 19-32](#). This mandate directs Commissioner Richard Corcoran to comprehensively review the academic standards for Florida's kindergarten through grade twelve students and provide recommended revisions to the Governor by January 1, 2020.

According to [Rule 6A-1.09401, Florida Administrative Code \(F.A.C.\)](#), the commissioner shall periodically review, accept public comment on and revise Florida standards. To begin this work, the department is seeking public input on the Florida Standards as currently adopted. This feedback is critical to the revision process.

Public input is encouraged through the online EdCredible® platform accessible at www.floridastandardsreview.org. EdCredible® provides all stakeholders with open access to participate in the review process. Stakeholders are required to open an account using their valid email address before providing input on standards. The platform will initially list the current Florida K-12 English Language Arts and Mathematics standards individually.

The department's timeline is available on the [Standards Review](#) webpage to ensure a transparent process and provide stakeholders with ample time for input on revised standards as they are developed. We encourage you to share this information with local stakeholders to help maximize the number of Floridians contributing to this critical process. For the most current standards review information, please visit <http://www.fldoe.org/standardsreview/>.
