_____ AVID (By invitation only)	_____ Exploring Music		

STEAM TEAM -- BRMS's gifted and advanced team. We have two main goals:

- 1) to introduce and encourage student interest in the STEM fields (Science, Technology, Engineering, and Math) while also ensuring students understand the important role of the humanities;
- 2) to prepare students for success in top-level academic courses and to acquire skills, knowledge, and the penchant for self-directed learning needed for success at colleges, universities, and advanced technical schools. These courses include high school credit classes in the 7th and 8th grades and college level classes in high school (A.P., I.B., etc.).

To be considered for and remain in STEAM, a student must have a score of 3+ on the FSA ELA and Math; A-B grades on report cards, good behavior, complete all assigned work, and be responsible with technology. Slots are limited, and an application must be completed. **To apply**, please go to brmsstem.weebly.com. If you have questions, please contact Chris Brown at brown1c@manateeschools.net.

Note: 7th grade Immunization requirements: Provide proof of required immunizations including the Hepatitis B Vaccine prior to the first day of school.
