

PCHS Technical Theatre Application

Technical Theatre is a project-based, hands-on course where students will study theatre production elements from the set on stage to behind-the-scenes work, and do all design, construction and technical work for Bulls Theatre Company productions. This includes scenic design, set construction, rigging and lighting, costume and make-up design, special effects, prop making and stage management. Thus, students in this course must have some kind of creative skill and experience to include drawing, painting, sewing, woodworking, sculpting, photography, stage management, lights, or sound.

Complete this application, including obtaining your parent's signature, and submit by March 10 to Ms. Olga Peña at penao@manateeschools.net.

Student Name: _____ Grade Level (next year): _____
