

# FUNDS AT WORK FOR OUR YOUTH

*The mission of the SEHS Sports Club, is to sustain and build an outstanding Athletic program for our students and community.*

The Club supports all athletic activities. Through the work of a dedicated group of volunteers, unfunded needs are met, which ensure that no student is deprived of the best athletic experience possible.

Each year, the SEHS Athletic Department raises approximately \$60,000 to the school's athletics program. These revenues are earned through concession stand sales at various sporting events and other fund raising activities. Most important to the program, is your community support. Here are some of the ways your funds assist our youth:

- **Scholarships** are awarded to deserving students who desire to continue their educational experience.
- **Equipment & Uniforms** are provided to the athletic department when needed.
- **Awards Programs** are supplemented including plaques, awards banquets and other recognition programs which reward teams for their efforts.
- **Continuing Education** for our coaches is funded when possible so that they can attend clinics to keep them on the cutting edge of their respective sports.

The SEHS Athletic Department invests all of our proceeds and efforts in our greatest asset, today's youth. This allows our athletes to experience the feeling that they are part of one of the most successful programs in the State of Florida. Please, become a partner with us. We thank you for your support.

## A Note from Coach Lynum

The Southeast High School tradition of fielding outstanding athletes and teams has remained a constant. The 202-23 school year saw us win a district title in Girl's Swimming, and State Medalist in Girl's Swimming, Girl's Weightlifting, and Girl's Track and Field.

We have designed this Sports Club Sponsorship Program to assist us in raising the additional funds necessary for us to keep up with the demands of maintaining successful programs. Recent developments have created an even greater need for your assistance.

Our sports club sponsorship program makes it possible to provide additional support to keep our athletes supported financially. With the support of generous individuals and businesses we can continue to support our kids record setting athletic endeavors.

Kevin Lynum  
Athletic Director
