

This organization is the inter-curricular career and technical student organization to the Engineering & Technology Education Course W.D. Sugg Middle School. We are an affiliate of National TSA and Florida TSA.

The TSA mission statement is “Learning to Lead in a Technical World,” the mission of W.D. Sugg TSA is to prepare its members to be successful leaders and responsible citizens in a technological society through co-curricular activities within the technology education program; which include communication, leadership, and competitive skill development in modern classroom/laboratory environments. The heart of TSA is its competitive events. Combined, there are over 92 individual and team events on separate middle and high school levels in three conference setting. These contests reflect our engineering and design focus as well as leadership skills.

We invite you to join us in support for the future designers, inventors, innovators and engineers and be a W.D. Sugg TSA Corporate Partner. Your partnership will provide support for travel scholarship to help student contest winners represent our school at the 2023 National TSA Conference in Louisville Kentucky.

Individual support of any amount is always welcomed.
