

Introducing Woz ED Science Curriculum

Meeting Expectations for Scientific Achievement

Dear Parents,

This year we are thrilled to introduce the **Woz ED Science Curriculum** into our 8th grade science classrooms. The goal of these kits is to inspire and empower young minds in the world of scientific exploration.

WHY WOZ ED?

- * **Expertly Crafted Lessons:** Our curriculum is meticulously crafted by experienced educators to ensure a comprehensive and engaging learning experience for your child. We believe in hands-on, experiential learning that cultivates critical thinking, problem-solving skills, and scientific inquiry.
- * **Hands-On Resources:** Your child will have access to hands-on-resources, including state-of the art materials, interactive digital resources, and captivating visual aids.
- * **Inspired by Steve Wozniak:** Developed in collaboration with tech pioneer Steve Wozniak, co-founder of Apple Inc., our curriculum fosters an innovative mindset and encourages students to think outside the box. Woz ED Science Curriculum instills creativity and helps your child see science in the world around them.
- * **Real-World Applications:** We believe in connecting scientific concepts to real-world applications. By emphasizing practical examples and projects, your child will understand the relevance of science in everyday life and be better prepared for future academic and professional endeavors.
- * **Individualized Learning:** Every student is unique, and our curriculum is designed to cater to diverse learning styles. Our teachers are skilled in tailoring lessons to meet the individual needs of each student, ensuring a personalized learning journey.

Inspired by Steve Wozniak,
co-founder of Apple

Give your child the gift of scientific knowledge and a passion for discovery. Join us on an unforgettable learning adventure with the Woz ED Science Curriculum.
