

## *The School Advisory Council (SAC)*

*The School Advisory Council (SAC) is a group of dedicated teachers, parents, and community partners elected to support and advise the school on a variety of important matters. Their main roles include providing guidance to academic programs, helping to develop new initiatives, and identifying best practices for infrastructure, and school security. They facilitate an ongoing exchange of information and ideas, ensuring that the school remains a safe, innovative, and thriving environment for all students.*

*The council is composed of members from diverse and ethnic backgrounds, reflecting the rich cultural tapestry of the school community. These representatives play a crucial role in supporting various initiatives by serving as voting members on important decisions. Their involvement ensures that the voices and perspectives of all community members are heard and considered, fostering a more inclusive and well-rounded approach to school governance.*

*The School Advisory Council (SAC) holds their meetings monthly, in conjunction with McNeal's PTO meetings. These gatherings are open to everyone, inviting all members of the community to participate and contribute. For more information, please reach to the McNeal Administration Team.*
