**Number Sense**

1. Odd numbers end in __________
   a. 1, 3, 5, 7 or 9
   b. 0, 2, 4, 6 or 8
   c. 0, 1, 2, 3 or 4

**Problem Solving**

1. A class of 23 students are going on a fieldtrip to the zoo. 5 parents are driving their cars. How many students will go in each car? Explain your answer.

   Work Space

   ____________________________________________________________

   ____________________________________________________________

   ____________________________________________________________
Geometry Time

1. How many triangles would it take to make this hexagon?

2. How many right triangles would it take to make a square? Answer the question below, and then show your answer by making a drawing.

   A. 2
   B. 3
   C. 4
   D. 6

Fraction Action

1. Which two of these fractions are equivalent?

   A. a and b
   B. b and c
   C. a and c

2. Place the following fractions where they belong on the number line:
