

# School District of Manatee County

2022 - 2023

## School Administrators Salary Plan

for

## Principals and Assistant Principals

The School Administrators Salary Plan is calculated using several areas.

Base Pay is the initial salary placement. Upon hire, school administrators are placed on the School Administrators Salary Plan on step one if this is their first time in that position or placed on the step associated with their previous years of experience in the same position. (*ex: prior years AP experience to AP Base Bay Placement and prior years Principal experience to Principal Base Pay placement.*) Experience is granted for each full school year in that position. Assistant Principal Experience is not used for Principal placement. A Principal or Assistant Principal must work a full four (4) years at their assigned Pay Grade at each step to be eligible to move to the next step. Eligibility is after accumulating and completing 4, 8, 12, or 16 years of experience in the same position. This is calculated by using the start date in the position to the current date and from the step of initial pay grade and step placement as long as the position is the same. (*Ex: Assistant Principal to Assistant Principal; Principal to Principal at that Pay Grade*).

Once Base Pay is determined, supplements are added related to the demographics of the school that the school administrator is assigned to. The Demographic Supplement amounts are based on the student enrollment at the school from the previous year's Survey 2 FTE Count and if it is a Title One school.

In addition to Base Pay and a Demographic Supplement, if the School Administrator holds an advanced degree other than the master's degree that is required for the position, a Degree Supplement is given.

The School Administrators Salary Schedule is a Performance Based Salary Schedule. Each year Principals and Assistant Principals are evaluated by the either the Executive Director of Elementary Schools or Executive Director of Secondary Schools. The performance evaluation includes metrics for student achievement, growth, etc. Those metrics, observations from the Executive Director, and goal setting determine an overall rating that is then used to calculate a Performance Supplement. The Performance Supplement is a percentage calculated on the school administrator's total compensation after all adjustments that includes all supplements and remains year after year. Every year a new Performance Supplement is added to the school administrator's total compensation if an Effective or Highly Effective rating is earned. Ratings of Needs Improvement/Developing, or Unsatisfactory will not receive a performance supplement increase. Performance Supplements earned as an Assistant Principal are removed when being promoted to a Principal and are awarded after one full evaluation cycle as a Principal.

Finally, from time-to-time School Administrators might be asked or will volunteer to serve on district committees or have other responsibilities on an annual basis. An Other Responsibilities Annual Supplement may be paid. Additionally, a Professional Development Annual Supplement may be given as well. The Other Responsibilities Annual Supplement and Professional

Development Annual Supplement are awarded by the Superintendent or designee annually and do not carry over and are not guaranteed year after year.

Please note that all additional annual supplements are assigned at the discretion of the Superintendent.

BASE PAY

Principals and Assistant Principals are initially placed upon hire on the Performance Pay Grades below. Each pay grade is a difference of \$6,453 for Principals and \$3,434 for Assistant Principals.

<u>PRINCIPAL BASE PAY (246 Days)</u>					
Years of <u>Completed</u> Exp. (Placement Only)	Level 1 0 to 3 years	Level 2 4 to 7 years	Level 3 8 to 11 years	Level 4 12 to 15 years	Level 5 16+ years
P10 Elem.	\$85,041	\$91,494	\$97,947	\$104,401	\$110,854
P11 Middle	\$90,907	\$97,361	\$103,814	\$110,268	\$116,721
