Media Specialist

Dr. Mona Jain Middle School

Teacher Impact Grant

Project Description: We are a new middle school that just opened in August. Our Media Center was given a “starter kit” of book titles that is generated through the Follett School Solutions, Inc. – the company we use for ordering books from. We were given one copy of each book. After beginning the school year, we found that there was an immediate need for some more titles, but no funds available. We have a small population of students who only speak Spanish and only had 6-8 books written in the Spanish language. Also, a very popular series of books was not even ordered. I would like to be able to provide some more Spanish written books, more copies of popular titles, and copies of the series we don't have. These books would be available then for the students to read when they come to the Media Center instead of having to wait for the one copy to be returned.

Project Objectives: By adding these books to the Media Center, we will see more visits occur and more checkouts from the students. The measurement tool that I will use will be to run reports from our checkout system- Destiny- to show success.

Project Timeline- Project would start as soon as monies are available to be used to order from company.

Project would end at the end of the year.

Project budget: \$964.98
