## Principals Report

---

- a. State of the District Power Point- Reviewed changes in the county over the past year. More reviews from 2009 to 2019 as well. Our PTO already purchased 12 Samsung Smart Boards. They have already been delivered and we are waiting on installation from the county. Other millage money will help to purchase more Smart Boards. Mrs. Price will reach out to the technology department to add more for Willis due to our current state of technology. Millage vote in the next 2 years- that amount has helped to attract and retain teachers, provided for technology for classrooms, science equipment, fluency folders and printing supplies. All purchases are planned and submitted for district approval.
- b. New Addition Update- colors are selected for inside and outside of school. Still on track for completion date in May and ready for students fall 2020.
- c. Safety and Security- no security issues, no more complaints about construction workers driving wrong direction out of school. No new security measures have been put in place or need to be addressed at this time.
